Mr. Keith Lund  
Burlington Environmental Inc.  
955 Powell Avenue SW  
Renton, WA 98055-2908

Dear Mr. Lund:

Re: Requested Schedule Extension for the Pier 91 Facility Interim Status Closure Plan, WAD000812917

The Washington State Department of Ecology (Ecology) hereby approves Burlington Environmental Inc.'s (Burlington) two week extension request for submittal of the revised Interim Status Closure Plan at the Pier 91 Facility. The original date for submittal was June 16, 1994. We understand that Burlington will submit the revised Closure Plan on, or before July 1, 1994.

Burlington is required to notify Ecology as soon as possible of any deviations from submittal dates. Phone calls on the day before a submittal due date are **not** considered sufficient notice. We strongly encourage Burlington to better track time lines for submittal. Please remember that failure to meet specified time frames can be considered a compliance violation subject to penalty issuance.

If you have any questions or comments regarding these matters, please contact Galen Tritt at 649-7280 at this office.

Sincerely,

*for Barbara Smith*
